Area of Squares

The area of a square is the amount of space inside the square.

To find the area of a square, use this formula:

$$\text{Area} = s \times s$$

or

$$\text{Area} = s^2$$

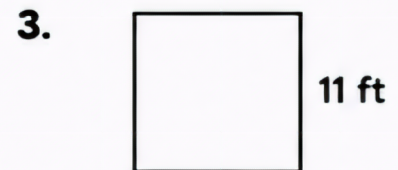

Directions: Find the area of each square. Show your work in the space provided.

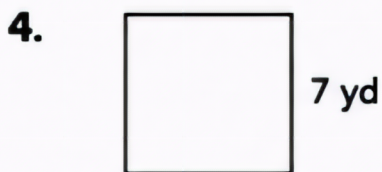

Area = _____ cm^2

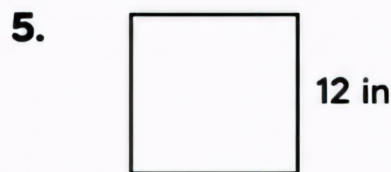

Area = _____ m^2

Area = _____ ft^2

Area = _____ yd^2

Area = _____ in^2

Area = _____ cm^2
