

Name: _____

Date: _____

Comparing Fractions

Same Numerator

When two fractions have the **SAME NUMERATOR**:

- The fraction with the **SMALLER** denominator is **GREATER**.
- The fraction with the **LARGER** denominator is **SMALLER**.

Directions: Compare the fractions. Write $>$, $<$, or $=$ in the circle.

1. $\frac{3}{4}$ $\frac{3}{6}$

2. $\frac{3}{5}$ $\frac{3}{8}$

3. $\frac{3}{2}$ $\frac{3}{7}$

4. $\frac{3}{9}$ $\frac{3}{3}$

5. $\frac{3}{10}$ $\frac{3}{6}$

6. $\frac{3}{4}$ $\frac{3}{12}$

7. $\frac{3}{8}$ $\frac{3}{8}$

8. $\frac{3}{3}$ $\frac{3}{11}$

9. $\frac{3}{7}$ $\frac{3}{2}$

10. $\frac{3}{6}$ $\frac{3}{9}$

Write two fractions with the **SAME NUMERATOR** that are equal.

____ = ____
