Finding Perimeter of Rectangles

3rd Grade Math

The perimeter of a rectangle is the total distance around it.

Formula: $P = 2(l + w)$

Add all four sides. Opposite sides of a rectangle are equal in length.

Directions: Find the perimeter of each rectangle. Show your work in the space provided.

1.

12 cm

7 cm

Perimeter = _____

2.

15 m

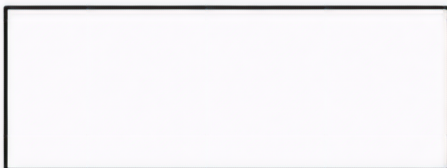

9 m

Perimeter = _____

3.

8 in

5 in

Perimeter = _____

4.

20 ft

11 ft

Perimeter = _____
