Fractions on a Number Line

A number line helps us show fractions.

To find a fraction, split the space between whole numbers into equal parts.

Part 1: Write the fraction that each point shows on the number line.

1.

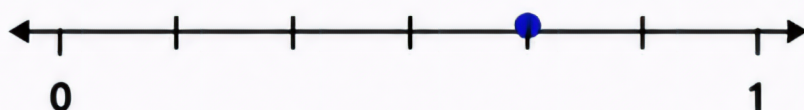

Fraction: _____

2.

Fraction: _____

3.

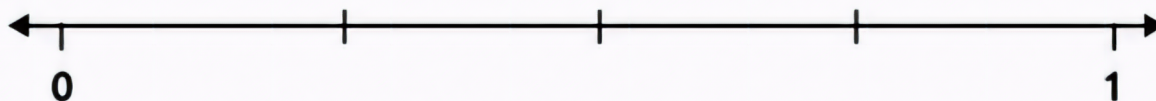

Fraction: _____

Part 2: Draw a point on the number line to show each fraction.

4.

$\frac{1}{4}$

5.

$\frac{2}{3}$

6.

$\frac{3}{6}$
