NAMING FRACTIONS

Numerator and Denominator

A fraction shows how many equal parts of a whole are used.

$$\frac{3}{4}$$

→ Numerator: how many parts are used.

→ Denominator: how many equal parts make the whole.

Directions: Look at each fraction below. Write the numerator and the denominator.

① $\frac{2}{3}$

Numerator: _____

Denominator: _____

② $\frac{3}{5}$

Numerator: _____

Denominator: _____

③ $\frac{1}{2}$

Numerator: _____

Denominator: _____

④ $\frac{4}{6}$

Numerator: _____

Denominator: _____

⑤ $\frac{2}{8}$

Numerator: _____

Denominator: _____

⑥ $\frac{5}{10}$

Numerator: _____

Denominator: _____
