

Name: _____

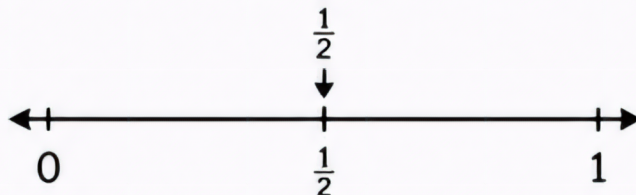

Date: _____

Placing Fractions on a Number Line

**Remember:**

A number line helps us show where numbers and fractions are.
The space between whole numbers can be divided into equal parts.

Example: Plot $\frac{1}{2}$ on the number line.

Directions: Plot each fraction on the number line. Write the fraction above the correct tick mark.

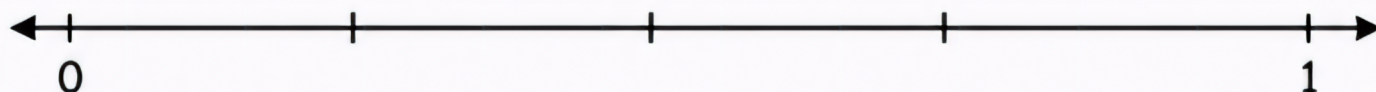

1. $\frac{1}{4}$ $\frac{2}{4}$ $\frac{3}{4}$

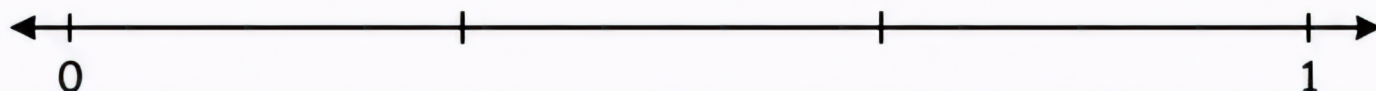

2. $\frac{1}{3}$ $\frac{2}{3}$

3. $\frac{1}{5}$ $\frac{2}{5}$ $\frac{3}{5}$ $\frac{4}{5}$

4. $\frac{2}{4}$ $\frac{3}{4}$ $\frac{4}{4}$

5. $\frac{1}{2}$ $\frac{3}{2}$
